RECHARGEABLE RV SAFETY FLASHLIGHT

The MicroPOD is a compact, yet extremely bright LED flashlight designed specifically for RV's. It includes a unique holding device which provides both a strong magnetic mount and a powerful alligator clip.

The rechargeable MicroPOD is an excellent replacement for traditional head style work lights and doubles as a cool blue night safety light when stored in a 12v power outlet.

Optional wall adapter
Allows charging anywhere

CORDLESS and RECHARGEABLE

- * Save money by recharging batteries instead of replacing them!
- * Charges in any 12 volt power point or cigarette lighter socket.
- * Long lasting between recharges.
- * Won't kill a car's battery if stored in its cigarette lighter.

MULTI-FUNCTION

- * High intensity LED with collimator lens provides a compact and intense beam.
- * Cool blue night safety light available when charging.
- * One switch function control.

UNIQUE HOLDER PROVIDES HANDS-FREE CONVENIENCE

- * Alligator clip style holder rotates 360 degrees side to side and 90 degrees up and down to hold the light exactly where you need it.
- * Strong magnet is perfect for electrical boxes, cars, or other metal surfaces.
- * Magnetic holder is encased in plastic and will not scratch painted surfaces.

SMART DESIGN

- * 100,000 hour life expectancy for LED light pod.
- * Durable LED light pods won't blow when dropped.
- * Super energy efficient.
- * Strong, clear polycarbonate lens, like eyeglasses.
- * Cool operation, won't burn you or melt plastic it comes in contact with.
- * Rugged anodized aircraft grade aluminum housing.
- * Optional wall adapter provides the convenience of recharging at home, at work, or at the office.
- * Compact size, just 2" long and 3/4 in diameter.
