

POWER OUTAGE?

The MiniPOD Automatically Lights When the POWER GOES OUT

The MiniPOD is the next generation in portable lighting...

It is a cordless, rechargeable, 2-in-1 LED worklight and flashlight that provides safety and convenience unlike any other light.

When stored with either it's 12 volt car, or 110 volt wall charger, the MiniPOD is always charged and ready for use.

Since it automatically lights when the power goes out, it truly is *"The light that finds YOU in the dark"*.

CORDLESS and RECHARGEABLE

- Save money by recharging batteries instead of replacing them!
- 2 ways to recharge included - 12 volt car charger and 110 volt wall charger.
- Long lasting between recharges, 8 hr. as worklight & over 12 hr. as flashlight.
- Built-in indicator shows the recharge status.
- Replaceable lithium ion batteries provide the latest battery technology. They are long lasting & have no recharge memory.
- Turns off automatically when plugged into charging cord for fastest recharge.
- Due to microprocessor controlled charging, it can be left plugged into a car cigarette lighter and it won't kill the car's battery. The microprocessor also extends the life of the MiniPOD by preventing accidental overcharging.

MULTI-FUNCTION

- Powerful 20 LED worklight.
- Long lasting 7 LED flashlight.
- Safety function automatically turns on worklight at 50% intensity when the power goes out making it safe and easy to find in the dark.
- One switch function control.

CONVENIENCE

- Hanging hook turns 360 degrees & folds out of the way when not in use.
- Magnetic holder adjusts 360 degrees providing hands-free operation.
- Magnetic holder can also be wall mounted for convenient storage.

SMART DESIGN

- 100,000 hour LED light pod life expectancy.
- Durable light pods won't blow when dropped.
- Super energy efficient, uses 97% less energy than a 60 watt bulb.
- Strong clear polycarbonate lens, like eyeglasses.
- Cool operation, won't burn you or melt plastic it comes in contact with.
- Tough "Sure Grip" housing.
- Light weight reduces fatigue when hand held.

PACKAGING THAT SELLS

The MiniPOD is packaged in a colorful, eye catching, box. The front graphics are designed to attract attention and sell like a billboard, the sides are photo rich, and the rear has details to entice even the most discriminating buyer.

A colorful, free-standing display is also available for point of purchase sales.

MANY MARKETS

The MiniPOD will generate excellent sales in a wide variety of markets including hardware, safety, automotive, home repair, outdoor, convenience, and retail.

The MiniPOD is a must-have safety item for anyplace where the power could go out.
